

# BIG DATA ANALYTICS

## » INTERNSHIP HIRING

Are you a student with a passion for data and technology? Are you looking for an opportunity to learn from and work with experienced professionals? If so, then we have the perfect internship for you! We are looking for dynamic and creative individuals who are willing to learn and advance their knowledge in big data fields. Position will be based in Section 13 Petaling Jaya.

### BENEFITS

- Competitive allowance and benefits package.
- Opportunity to learn from experienced consultants in their respective fields.
- Hands-on experience with data analysis tools and techniques.
- Chance to make a real impact on the company's data-driven initiatives.
- Opportunity to work on cutting-edge business intelligence projects
- Exposure to a wide range of data technologies.

### QUALIFICATIONS

- Undergraduate student pursuing a degree in statistics, mathematics, computer science, data science or a related field.
- Strong programming skills in Python, Scala, Java, SQL.
- Knowledge on data warehousing and data lakes.
- Knowledge on big data technologies such as Hadoop, Spark, and Hive.
- Experience with data visualization tools such as Tableau or QlikView would be advantageous.
- Strong analytical and problem-solving skills.
- Experience with data analysis tools such as SQL Query Tool, Excel, Power BI and Tableau.
- Knowledge on machine learning frameworks such as scikit-learn or TensorFlow.
- A passion for learning and working in a data-driven environment.
- **This role requires a mandatory minimum commitment of six (6) months. Applications from candidates who are unable or unwilling to fulfil this requirement will not be considered.**
